\$50,000

Caladesi Team:

Kurt B. Hinrichs, P.E.

Caladesi Construction re-configured the teller line at this branch office of Achieva Credit Union. The branch maintained all of its regular hours so that customer service would not be interrupted. Each stage of the interior remodel was carefully planned so that security and safety would be maintained.

In addition to the remodeling of the teller area, the entrance to the bank was modified to allow customers 24-hour access to an interior automatic teller machine. Caladesi also added an ATM to the exterior customer drive-through.
